

Shoreline Master Plan Amendment

Sewage Overflow Facilities

- SPU is required to build stormwater & sewage facilities along the shoreline to improve water quality and comply with Federal & State regulations (NPDES permit and Consent Decree).
- Shoreline locations in the Conservancy Recreation (CR) environment for facilities are necessary.
- Public involvement processes have influenced site selection.

Shoreline Master Plan Amendment

Proposed Language

Utility service uses for treatment or storage of stormwater and/or sewage will be allowed as a conditional use in the conservancy recreation (CR) Shoreline environment. All other types of utility services will continue to be prohibited, as they are under current Code.

- Conditions are identified in the Washington Administrative Code (WAC 173-206):
 - That the proposed use is consistent with the policies of RCW 90.58.020 and the master program;
 - That the proposed use will not interfere with the normal public use of public shorelines;
 - That the proposed use of the site and design of the project is compatible with other authorized uses within the area and with uses planned for the area under the comprehensive plan and shoreline master program;
 - That the proposed use will cause no significant adverse effects to the shoreline environment in which it is to be located; and
 - That the public interest suffers no substantial detrimental effect.

Anticipated Locations for Facilities in CR Environment

Parking Lot along Lake
Washington Blvd at 49th
Ave S. (Construction
begins in 2013)

Parking Lot or Tennis
Courts in Seward Park
(Construction begins in
2015)
